Governor Justice,

The EPA is considering proposing the Shaffer Equipment/Arbuckle Creek Area site, located in Minden, West Virginia, to the Superfund National Priorities List. In the attached letter, we are seeking the support of the State of West Virginia to propose the site for inclusion on the Superfund National Priorities List.

A hard copy of the letter will also be mailed to you. Please direct any response to this request to me and to my regional colleagues: Cecil Rodrigues (Deputy Regional Administrator, rodrigues.cecil@epa.gov), Karen Melvin (Director, Hazardous Site Cleanup Division, Melvin.Karen@epa.gov), and Jenifer Fields (Chief of Staff, fields.jenifer@epa.gov).

Please do not hesitate to contact me with any questions or concerns regarding this matter.

Thanks,

Cos
